May 21, 1919

Dear Sir:

The water of Lake George as affected by your dam at Ticonderoga has for several years been the subject of complaints, investigations and reports. As stated to you in Mr. Pettis' letter of June 11, 1918, and again on April 22, 1919, high water has caused considerable damage to the state islands and we are spending thousands of dollars trying to protect them.
